

at Newtown Bridge Club
A friendly place for bridge!

The purpose of Bridge Mentoring at Newtown Bridge Club is to encourage aspiring bridge players by guiding their growth in all aspects of the game. Both the mentor and mentee accept certain responsibilities when participating in this program and both the mentor and mentee should benefit from the relationship.

Mentor and mentee should allow sufficient time before the game to fill out a convention card. Experienced mentors recommend the partnerships start with basic agreements and proceed to more sophisticated conventions and systems as the partnership matures. After the game, mentors and mentees should plan to spend a reasonable amount of time discussing the problems that came up during the game and analyzing the hands as a learning tool. As in any game, partnerships should refrain from discussing hands until the round is finished and avoid conversations that other players might overhear during the game.
